Notes: The Medicaid Managed Care auto-disenroll process was suspended after the implementation of the Ohio Health Plans MITS System until mid-September. This prevented individuals from being inappropriately disenrolled from managed care plans. This resulted in a large managed care enrollment increase for September, 2011 and a decline in the fee-for-service caseload.

Source: The enrollment data source changed from August 2011, to September, 2011. Enrollment data is now derived from the ODJFS Ohio Health Plans *MMIS MITS System* Eligibility data derived from the ODJFS Ohio Health Plans *Recipient Master File*.

*Disenrollment and New Enrollment are not available by county by Region. Totals are reported by Region only, starting the 2nd month with Regional membership.

Notes: N/A = Disenrollment and New Enrollment statistics are not available for the month due to system changes.
 Enrollment Rate (Percentage of Eligibles Enrolled in MCPs for September, 2011) = Total Enrollment September 1, 2011 / Total Eligibles September 1, 2011 x 100.

The Medicaid Managed Care auto-disenroll process was suspended after the implementation of the Ohio Health Plans MITS System until mid-September. This prevented individuals from being inappropriately disenrolled from managed care plans. This resulted in a large managed care enrollment increase for September, 2011 and a decline in the fee-for-service caseload.

Source: The enrollment data source changed from August, 2011 to September, 2011.
 Enrollment data is now derived from the ODJFS Ohio Health Plans MMIS MITS System.

*Disenrollment and New Enrollment are not available by county by Region. Totals are reported by Region only, starting the 2nd month with Regional membership.

Notes: N/A = Disenrollment and New Enrollment statistics are not available for the month due to system changes.
Enrollment Rate (Percentage of Eligibles Enrolled in MCPs for September, 2011) = Total Enrollment September 1, 2011 / Total Eligibles September 1, 2011 x 100.

The Medicaid Managed Care auto-disenroll process was suspended after the implementation of the Ohio Health Plans MITS System until mid-September. This prevented individuals from being inappropriately disenrolled from managed care plans. This resulted in a large managed care enrollment increase for September, 2011 and a decline in the fee-for-service caseload.

Source: The enrollment data source changed from August, 2011 to September, 2011.
Enrollment data is now derived from the ODJFS Ohio Health Plans MMIS MITS System
